BIBLIOGRAPHY OF PEAK SYSTEM USE AND CITATIONS

Updated August 1, 2003

Below are just a few of the studies and articles that have used or reference Peak and/or its equipment. Every effort has been made to ensure the accuracy and appropriateness of all citations. However, many of these references were submitted by outside sources and may be subject to change. We would like to thank all of our users who have helped with this. If you would like to add to this list please contact Peak or provide us a copy of your article or research paper. Given copyright realities Peak is unable to supply these articles to you.
